HIV/AIDS REPORTING GUIDELINES

HIV Reporting was added to the list of reportable diseases on July 1, 2002. Under Section 2641.5-2643.20 of the California Code of Regulations, Title 17, Division 1, Chapter 4, Subchapter 1, Article 3.5, HIV will be reportable using non-name code. All test verifying the presence of HIV infection, a component of HIV, or antibodies to or antigens of HIV, and all tests used to monitor HIV infection, including HIV nucleic acid detection (e.g., viral load) are reportable.

Providers are required to complete a case report form for each confirmed **HIV POSITIVE** test results that has not been reported and send it to the County of Riverside, Department of Public Health.

AIDS and HIV will use the same form [DHS Form 8641 A (09/01), **Adult HIV/AIDS Confidential Case Report**] for patients greater than or equal to 13 years of age at time of diagnosis.

For patients less than 13 years of age at diagnosis [DHS Form 8641 P (09/01), **Pediatric HIV/AIDS Confidential Case Report**] should be completed.

For further assistance with reporting HIV disease or AIDS, please contact the HIV/AIDS Surveillance Unit at **(951) 358-5307** or **1-800-243-7275**.
