

# Stop the Spread of Pertussis!

## Bring a VaxAmerica Tdap Vaccine Clinic to Your School!

Pertussis (also known as whooping cough) is a serious respiratory disease, and is now at epidemic levels across the nation.

Fortunately there is a vaccine to prevent Pertussis.

VaxAmerica can help your students meet their vaccination requirements with our safe, convenient and affordable on-site Tdap clinics.

### It's as easy as 1-2-3:

#### 1. CALL

- ▶ Call VaxAmerica at (888) 444-8522 to reserve your clinic date, time and location.

#### 2. COMMUNICATE

- ▶ VaxAmerica provides you with posters, flyers, email messages and phone scripts at no charge!

#### 3. VACCINATE!

We'll take care of the details including:

- ▶ Pre-registration and scheduling of appointment times.
- ▶ Skilled nurses and vaccine delivery direct to your clinic location.
- ▶ Vaccination records for all students.

VaxAmerica is the nation's choice for safe, on-site school vaccination clinics.

Call (888) 444-8522 today to learn more.

<sup>1</sup> <http://cdc.gov/pertussis/about/signs-symptoms.html>

VaxAmerica is a program of NuFACTOR, FFF Enterprises' specialty pharmacy. FFF Enterprises is the nation's most trusted distributor of vaccines.

### Prevent the Spread of Pertussis!

Vaccination is the first line of defense for wellness at your schools.

#### Pertussis symptoms can include<sup>1</sup>:

- ▶ Mild cold symptoms including a runny nose and low-grade fever
- ▶ Violent and rapid coughing, often accompanied by a "whooping" sound, can become more severe and occurs mostly at night
- ▶ Vomiting (throwing up)
- ▶ Exhaustion (very tired) after coughing fits

Each participant will receive a link to their personal Electronic Vaccination Record (EVR) with the vaccine, manufacturer, date and lot number of their vaccination.

Call: (888) 444-8522
